## Automatic brake adjuster S-ABA

Automatic brake adjusters S-ABA are clearance sensing brake adjusters operating according to the clearance principle developed by Haldex – now widely accepted as a world standard for brake adjuster operation.

Through its innovative self-setting flexible design, the Haldex S-ABA automatic brake adjuster offers two benefits which revolutionised brake adjuster fitting: **a free selection of control arm position and error-free installation.**

**EX**cellent value

## Automatic brake adjuster AA1

Automatic brake adjusters AA1 offer customers a higher level of technical efficiency, safety, and reliability. They are designed to adjust exactly and gradually when it matters, maintaining a constant clearance between lining and drum, whatever the conditions or driver's braking style.

The adjustment mechanism is integrated into a robust, high-quality housing that protects it from knocks, dirt and moisture and assures a long service life even in hostile driving environments.
